REMARKS

25X1X

1. Hungarian military vehicles identified in Szekesfehervar (P 48/Z 00), on 19 May 1951 included 3-ton truck occupied by a driver and 20 soldiers with blue service color moving from Tanacsics Street to Voeroes Hadserec Street; 3-ton truck occupied by four soldiers with red service color with white piping standing on Piac Square; and jeep occupied by four soldiers with blue-white service color and air force insignia moving to the airfield. *
2. On 25 May 1951, the Arpad Hotel in Szekesfehervar was occupied by Soviet military personnel.
3. On 25 and 26 May 1951, Hungarian border guard troops wearing green service color and crossed-rifle insignia were seen at the railroad station of Raba-Molnari (P 43/C 87).
4. The volume of westbound freight traffic through the border station of Hegyeshalom (P 48/Y 06) in April and May 1951 was very light. For example, only one or two freight trains crossed the border within any 24-hour period in May.
5. According to Hungarian railroad men of Hegyeshalom, inductions into the Hungarian Armed Forces continued throughout May. One of the informants said that members of the 1901 through 1930 classes in the Magyarovar (P 48/Y 16) area received notices of induction or registration for the draft. In late May, Hungarian police wore the new blue uniforms which were similar in cut to the Soviet officer uniforms.

25X1A The service colors indicate that AVH, AAA, and Air Force troops are probably stationed in Szekesfehervar.
